SAFETY SOLUTIONS FOR  
PUBLIC WORK SPACES

WORKSPACE DIVIDERS | SNEEZE SHIELDS | WORKSPACE GUARDS | SAFETY GEAR | WAYFINDING GRAPHICS

TRANSPARENT, RELIABLE PROTECTION FROM  
SPLASH, PARTICLES AND RESPIRATORY DROPLETS

## DIVIDERS AND BARRIER SOLUTIONS

Protecting against the spread of illness poses a great challenge to many key essential industries that rely on high traffic and client interaction. In these applications, social distancing is not always possible, and therefore more effective precaution are required. Plastics are in a unique position to help combat this challenge through several useful materials--and the properties associated with each.

EASILY GUIDE YOUR CLIENTS AND STAFF TO FOLLOW SAFE DISTANCING BEST PRACTICES

## SOCIAL DISTANCING FLOOR SIGN SOLUTIONS AND WAYFINDING GRAPHICS

DuraPlaq recognizes the need for proper social distancing signage and wayfinding solutions inside essential business that must remain open during these troublesome times. Floor signage is an excellent way to help organize clients and staff, to ensure that safe social distancing practices are followed.

## SNEEZE GUARDS

Acrylic sneeze guards are transparent, clear acrylic sheets that can be installed anywhere. Sneeze guards can prevent the spread of germs at checkout registers, restaurants, and other critical areas by acting as a physical barrier that stops germs from reaching beyond the barrier. They are durable, lightweight, and more impact resistant than glass, while retaining similar optical qualities. These panels can be easily sanitized using non-abrasive cleaners.

PREVENT THE SPREAD OF GERMS AT CHECKOUT REGISTERS AND KIOSKS, RESTAURANTS AND OTHER CRITICAL WORKSPACE AREAS
